

**RFO-HCTT01
BLE
Table Transmitter**

DATA SHEET

Product Description

RFO-HCTT01

BLE Table Transmitter

Easy alert anywhere you want

EASE OF USE

To alarm, the client or employee only needs to touch the alarm button. This also makes it user-friendly for users with a reduced pressure force. When touched, the user receives feedback by means of a vibration function and an acoustic signal.

You can use the transmitter as a mobile alarm button or mount it at a fixed location. For example on a table or wall.

HIGHLIGHTS

- Alarming
- Localization within
- Easy to press button
- Long battery life
- Acoustic and haptic feedback
- Easy installation
