

**RFO-WR02
BLE/GPS/2G
Wearable People
Locator**

DATA SHEET

Product Description

RFO-WR02 BLE/GPS/2G

Locate people inside and outside a building, alert the easily, give easily access to designated passes and communicate through a clear speech connection.

EASE OF USE

To alarm, the client or employee presses the alarm button. This is easy to press, which makes it also user-friendly for users with a reduced pressure force.

This advanced transmitter allows staff to locate clients both indoors and outdoors. And clients enjoy maximum freedom and security, both indoors and outdoors. The location determination works indoors via BLE and outdoors via GPS.

The transmitter is compact and completely waterproof, so it is not a problem if it gets wet. And you wear the transmitter around your neck or wrist.

To use the Kompy Nano, an Evresys Monthly Subscription Kompy is required.
